Wall Mount Scale
(In Room Mini)
Model SR7005i

The ultimate space saver. Designed for flush wall mount, the SR7005i platform is ideal for in-room or clinical use where space is at a premium.

The low profile weighing surface makes the scale easy to ambulate onto when deployed. When not in use the scale can be folded up and only requires 2-1/2" of floor space.

Constructed of heavy-duty aluminum plate, the SR7005i has a weight capacity of 660 Lbs. Lowering the scale is both easy and safe through the use of a damper. Pull the platform from its magnetic latch and allow the scale to slowly lower itself to the floor.

It's there when you need it and cleanly out of the way when you don't.

SRScales®
INFUSED WITH
MICROBAN®

ANTIMICROBIAL

SR Scales exclusive: contains Microban® antimicrobial technology for powerful, continuous product protection against bacteria.

AUTO-WEIGH

The scale will automatically turn on, lock in a stable weight, and send a record of the weight, date, and time stamp to the optional printer. (BMI can also be calculated and added to the record.)

MEMORY

Recalls the last stored weight.

POWER

Medical grade AC wall power supply or (6) "C" cell batteries

BMI CALCULATION

Enter height information to calculate and display Body Mass Index.

EHR/EMR READY

Serial data output can be used to communicate with electronic health records through send or get commands.

OPTIONAL EQUIPMENT

Thermal printer

4 YEAR WARRANTY

4 YEAR WARRANTY
